OBJECTIVE

Computer Science student with strong Python skills and a growing portfolio in AI, ML, and software development. Experienced in real-world projects and internships, including EXE utilities, web tools, and data science tasks. Seeking a full-time opportunity to contribute and grow in the field of AI or Software Engineering

EDUCATION

Bachelor of Engineering (C.S.E) – Hons , St. Peter's College of Engineering and Technology 2022 – 2026

CGPA : 8.75

SKILLS

Programming Languages: Python

Web Development: HTML, CSS, Flask

Databases: MySQL

Data Science: Pandas, NumPy, Matplotlib, Data Analysis, Power BI

Tools and Frameworks: Git, VS Code

Soft Skills: Problem solving, Team Collaboration, Innovative Presentations, Strong Communication

EXPERIENCE

WEB DEVELOPMENT INTERN | BRAKES INDIA PRIVATE LIMITED | 20/1/25 – 26/1/25

- Developed a responsive product showcase website for the company using HTML, CSS, JavaScript, and Figma, enhancing online visibility and user engagement.

JUNIOR AI ENGINEER | ZERO BUG SOLUTION | 1/1/24 – 30/1/24

- Works on various tasks related to AI projects, including data handling, model development, and collaboration with a team

AI ENGINEER INTERN | V LABS AND SOLUTIONS | 01/07/25 – 31/07/25

- Works on various tasks related to AI Projects using tools like BeautifulSoup For Web crawler , Computer vision for Real time in and out count monitoring did these like tasks as web interface by flask

PROJECTS

1. Voice-Based Application Form System with Analytics

- Built an AI-powered voice-enabled form system letting users complete application forms via speech, using speech recognition and NLP to parse and validate 1000+ form fields.
- Added an interactive analytics dashboard to monitor submissions in real time, surfacing insights.

2. Deep Crawler

- Created a custom Python web crawler to extract structured data from multiple websites.
- Implemented multi-threading and error-handling to efficiently handle large-scale data scraping.

3. In & Out Monitor (Real-Time Tracking)

- Built a real-time monitoring system to track user/device entry and exit logs.
- Used Python and file/database logging to record timestamps, enabling attendance and security insights.

EXTRA-CURRICULAR ACTIVITIES

- 1st Prize** in Technical Quiz – Alpha College of Engineering
- 2nd Prize** in "Hunt the Bug" – St. Joseph's College of Engineering
- A+ Certified** in Artificial Intelligence – Infosys Springboard
- Finalist (Top 5 Teams)** – Pranav2K25 Hackathon, Meenakshi College
